

Salmones Camanchaca – Q1 2018 trading update

Harvest volumes Q1 2018:

Atlantic Salmon: 9,589 tons WFE (8,630 tons GWE).

Trout: 4,426 tons WFE (3,983 tons GWE). Note that once each farming site's harvest is completed, Salmones Camanchaca obtains one third of the profits of this joint venture, which is operated by Caleta Bay and is in force for the years 2017-2022.
