

PUBLIC STATEMENT

Santiago, October 1, 2020 | 14.30 pm

The Parent Company of Salmones Camanchaca (Camanchaca), reported that its fishing affiliate Camanchaca Pesca Sur, had a fire affecting the facilities of the horse mackerel freezing plant in Talcahuano this morning. There is still no clarity on the causes of the start of the fire, but the fire has not caused any harm or damage to the people who were there.

The facility has provided no freezing services to Salmones Camanchaca in the recent years and is not part of Salmones Camanchaca's processing strategy in the future, therefore there is no impact for Salmones Camanchaca.

Camanchaca is fully insured, including business interruption.
